2 Important Road Contracts To Be Let

Two roads contracts of vital importance to the Glades will soon be awarded by the State Road Department. Bids were received in Tallahassee Thursday and the contracts are expected to be awarded without delay.

Contract for surfacing SR 717 between the Bacom Point Airport and Road 80 south of Chosen will probably go to A. O. Greynolds and Co., of West Palm Beach on a low bid of \$66,141.00.

One of the longest pieces of road work to be let recently is the 53.7 miles stretch between South Bay and the Dade County line. A bid of \$559,944.00 was made by Rubin Construction Company of West Palm Beach on this project.

County Commissioner Paul Rardin said that bids will be received soon on a seal coat (resurface) on the 4.2 miles of road between the Woman's Club and the Bacom Point airport. This road was built several years ago and heavy hauling over it has damaged it to the extent that a seal coat is necessary.

Brimson Construction Company of Tampa had a crew of workmen on the job yesterday in an effort to finish the one-half mile State Market Road contract. Heavy rains just before Christmas caused the concern to pull out all their equipment. With favorable weather now it should not be more than two weeks before the job is completed.

Tragedy Strikes And Two Are Dead

Tragedy struck with stunning suddenness two pioneer families of Pahokee and Canal Point, the Upthegrove family and the Epperson family, Saturday morning when the car in which members of both families were riding plunged through the railing of a bridge at SR 7 and Lantana Road and sank into the six-foot waters of a canal.

When the victims of the car accident were pulled from the submerged car Mrs. Anna Upthegrove, 65, and Mrs. Bertie F. Epperson, 69, were dead from drowning. The other occupants of the car, Mrs. Josephine Cribbs Upthegrove, 69, a sister of Anna and driver of the car, James Epperson, 69, husband of Bertie, and Mrs. Lura Barbour, 69, of Atlanta, Ga., house guest of the Eppersons, were taken to Good Samaritan Hospital in West Palm Beach for treatment of shock and possible internal injuries.

The group was enroute to Delray Beach where Mrs. Anna Upthegrove had an appointment for medical treatment when the accident occurred. The survivors were rescued by John L. Barnett and Tom Mills, assisted by Carol Barnett.

Mrs. Erickson, a native of Sweden, died at her home north of Canal Point Thursday evening following a lengthy period of ill health. She came to the Canal Point area of the East Shore of Lake Okeechobee with her family 43 years ago when the Everglades was still a wild and mysterious land and a few fishermen, hunters and trappers living on the sandy ridge of the East Shore of Lake Okeechobee were its only white residents.

She was one of the few who was on the scene from the start and saw the wild, untamed Everglades change into the present agricultural empire of winter vegetables, cattle, sugar cane, fiber crops and rice. Mrs. Erickson was a member of the Christian Science Church in Canal Point.

Playground Will Be Opened Feb. 14

Members of the Canal Point Recreation Committee plan to officially open the recently constructed playground at the County Park Community Building grounds on Sunday, Feb. 14, according to Arnold Barad, chairman of the committee. Free drinks and ice cream for the kiddies will be the order of the day. The plans call for the official opening to start at 2 p. m. on the above date.

ON FIELD TRIP

Several members of the local Boys Wildlife Club, accompanied by their leader, Carlos Orr, spent the weekend on a field trip and outing at Fisheating Creek.

Important and much-needed roads improvement projects have been put in the 1954 budget by the State Road Department, according to County Commissioner Paul Rardin who received a copy of the budget Wednesday. Heading the list is the rebuilding of Conner's Highway between Canal Point and Twenty Mile Bend. Bids will be sought by the SRD within the next month or two on the first section—12 miles—from Canal Point east. The second section is scheduled to come up in August after the Flood Control District gets the first pump into operation at Twenty Mile Bend.

Second important job on the '54 schedule is a retread on State Road 15 between Belle Glade and Canal Point. This is the present highway used by hundreds of cars daily between the two towns.

At last it looks like the SRD is getting around to seeking bids for bridges at South Bay and another at Lake Harbor. These two bridges have long been death traps and the present SRD board is to be commended for its early action in considering these obsolete structures.

Also in the budget is a fund for building a new bridge across West Palm Beach Canal where Road 7 (continued on page 8)

Washington Okehs New Health Center

The \$20,000 public health center for Pahokee is now fully assured, according to County Commissioner Paul Rardin, who received a telegram from Senator Spessard L. Holland, Senator George Smathers and Congressman Dwight Rogers in Washington Tuesday saying that the federal government had authorized an expenditure of \$7,000 as its share.

The remainder of the cost will be shared equally by the Board of County Commissioners and the Pahokee City Council. The City will furnish the lots on which the structure will be erected. Present plans call for erection of the center on lots adjoining the city hall.

The building is to be thoroughly modern throughout and will add to the beauty of the city hall site. With the okeh from Washington, Rardin said, plans will now be rushed to completion in order that bids may be received soon.

more than half, and in most cases less than half of their God-given abilities.

The club made plans to welcome Edwin F. Traver of Key West, Rotary district governor, when he arrives in Pahokee Thursday, Feb. 25, for an official visit to the club. It was announced District Governor Traver will preside at an assembly of Pahokee Rotarians in the Woman's Club building at 8 o'clock in the evening of the day of his official visit.

And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

This Plan is one sure way to save because it saves something out of every check *before* you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

A STATEMENT

To the citizens of the Glades: I wish to announce my acceptance of employment with Mr. Boe of Pahokee, serving the capacities of specialized Zenith radio and television service repairing.

I feel it an honor and Privilege to have been selected for this position by Mr. Boe, and I shall in all my humble power carry out in the sincerest detail all duties assigned me. I shall at all times uphold the fine business principles and ethics with which Mr. Boe has so faithfully served his many friends during the past years.

I have been associated with radio and TV sales and service since 1932, having recently completed six years as service manager and field service representative for Cain and Baultman, Inc. of Miami, the distributors for the Zenith radio and television lines in the state of Florida. I want you all to feel that I shall always be your true and sincere friend and that our doors of service are always open to you regardless of the nature of your radio or TV problems. I also wish to impress upon you that I do not profess to know all the answers, nor am I a miracle man, but the knowledge and experience which I have acquired in the past will conscientiously be shared with you. I shall do my utmost to bring a satisfactory, dependable and honorable radio and television service to your fine community.

Mr. Boe feels greatly honored that he is depended upon by his many friends for his fair judgement in selecting their necessities that are used for their convenience and enjoyment. So after much deliberation and conscientiously searching for a satisfactory television and radio set that will give years of dependable service to his many friends, Mr. Boe has selected exclusively the complete Zenith radio and television lines for 1954, having been convinced that the Zenith TV Corp. has sacrificed nothing in the qualities of the many electronic parts that are used in the manufacture of the fine Zenith television and radio sets.

Having been closely associated with the fine organization for the past six years, I have learned that C. MacDonald, the president of the Zenith Corp., is a very meticulous and precise man. All of his designing and serving engineers are of the same caliber and learned men of the profession.

Zenith has led the field of electronics research for years, having given the industry many fine useful discoveries that have made television possible today. Mr. MacDonald has personally supervised his research engineers in this tropical climate to design television and radio circuits and many electronic parts that will satisfactorily operate and withstand the high moisture content of our location and give the Zenith owner a trouble-free, enjoyable service throughout the life of his chosen set.

Mr. Boe and his entire organization thanks you for your faithful patronage of the years past and we invite your trust and faithfulness in the future. We are proud to have been able to serve you and have deeply enjoyed our relationship. We feel we have now again selected for your enjoyment and pleasure a television set that will bring to you all the service you are seeking.

Sincerely,
Lew Meher

Boe's of Pahokee.

He was born in Glennville, Ga., in 1908, and his family moved to West Palm Beach in 1914, where they lived three years before moving to the Glades in 1917.

Mr. Knight is one of the organizers and secretary-treasurer of the Everglades Growers Cooperative, Pahokee, a precooling and sales organization for celery and sweet corn, handling over a million packages annually. Pahokee Chamber Executive Meet

The executive board of the Pahokee Chamber of Commerce at a meeting Monday night discussed plans for the printing of a new and revised brochure publicizing Pahokee and Lake Okechobee and the board voted to have its monthly news letter printed in the Pahokee News rather than mailing it individually.

It was reported new signs directing tourists and other visitors to a scenic view of Lake Okechobee waters at the Pahokee waterfront have been erected on SR 15 and US 441 in front of the Legion Hall and on SR 717 a mile from the waterfront.

The group passed a resolution to be sent to the National Chamber of Commerce deploring the use of the "Chamber of Commerce" name to promote any individual business deals and recommending that a stricter control of the name be undertaken by the national organization to prevent its use by unscrupulous persons.

Discussed at the meeting was a letter from the National Broadcasting Service informing the chamber there is a broadcasting frequency available for this area. The possibility of staging an air show at the Bacom Point Airport was also discussed.

Mrs. Bertha Orr, office secretary, gave a report on the C of C workshop she attended in Orlando Wednesday, this being the eighth of a series of such workshops sponsored all over the United States by the National Chamber of Commerce. She announced the National Chamber will sponsor institute for all C of C officers, directors and members at Chapel Hill, N. C., June 20-27.

Ridgecrest Worker To Speak In Pahokee

George W. Pickering, Director of Camp Ridgecrest for Boys, Ridgecrest, N. C., will speak Wednesday at 7:45 p. m. at the First Baptist Church. A 20 minute color film of the camp will be shown at the meeting.

For many years young men from Pahokee have been attending this camp nestled among the scenic Blue Ridge Mountains. Their parents say that Camp Ridgecrest provides a wholesome, well-supervised, fun-filled summer for the youngsters. The boys praise the entire camp program, which includes boating, swimming, horseback riding, tennis, crafts, and hiking.

Director Pickering and his staff of fifteen associates, eighteen Senior Counselors and Lifeguards and twelve Junior Counselors, have complete supervision of these activities for boys from nine through sixteen. The camp is divided into two age groups: Junior Camp, ages 9-11, and Senior Camp, ages 12-16. Each camp is further divided into tribal groups with a separate program to suit their needs. The camp is located on U. S. 70 eighteen miles east of Asheville, N. C.

The young director is a graduate of Mississippi College, and a former high school coach and teacher. He has been on the camp staff since 1947 and Director since 1950.

Among the local boys attending Camp Ridgecrest have been George and Jimmy Rozelle, Jimmy Schoeppe, Elmer B. Roelie and Wayne Elliott, Elsworth Keen, Jr. and Richard Shackford.

Parents interested in sending boys to the camp may get application blanks from Mr. Pickering.

Christian Science Group Of Canal Point

The wholly spiritual nature of effective prayer which overcomes sin, sickness, and sorrow, will be set forth at Christian Science services this Sunday.

Selections from the Authorized King James Version of the Bible and correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy comprise the Lesson-Sermon entitled "Spirit."

Scriptural texts include the following words of Christ Jesus, from John:
 "The hour cometh, and now is, when the true worshippers shall worship the Father in spirit and in truth: for the Father seeketh such to worship him. God is a Spirit: and they that worship him must worship him in spirit and in truth (4:23 the, 24.)

The following correlative citation from Science and Health by Mrs. Eddy will also be read:

"To enter into the heart of prayer, the door of the erring senses must be closed. Lips must be mute and materialism silent, that man may have audience with Spirit, the divine Principle. Love, which destroys all error" (15:9)

Today's good telephone service will be even better tomorrow thanks to the transistor, a tiny electronic marvel that would fit in a nutshell.

The transistor — invented by Bell System scientists — can do the work of a vacuum tube used in telephone, radio and television equipment and many other things a vacuum tube can not do. It is so small and light, yet so strong and reliable, that it has been called the "mighty midget".

A miracle, yes — but only one of many Bell System advances along the road toward more and better telephone service. To bring these new advances and to keep service good and growing requires a fair profit on the money invested in telephone equipment.
